Technical Data Sheet Redline Red Hot G 70/5

Product # 52305

Available Internationally As:

Redline Red Hot G 70/5

Product Description:

A mullite based gunning mix which can be applied either hot or cold. It contains a silicon carbide addition to help resist corundum buildup. This material develops an excellent bond with existing refractory surfaces and was designed to be applied over worn linings in aluminum processing furnaces. It contains a non-wetting system and be applied both above and below metal line.

Standard Packaging:	55 # /	25 <i>kg</i> Bag
Shelf Life:	9 month	S
Service Limit:	3100 °F	1700 °C
Contact Limit:	1700 °F	927 °C
Bulk Density - In Service:	141 pcf	2259 kg/m³
Bulk Density - To Place:	141 pcf	2259 kg/m³

Minimum Time To Firing: 24 hr

Other Data:								

Release Date: 1 Jun 2010

Heat Up Guide: Redline Schedule 3

ASTM Class:

Regular Castable

Refractory material should be stored in a cool, dry environment.

Note: All data are averaged results of ASTM tests (where applicable) on laboratory specimens. Reasonable variations in data can be expected. Data is not to be used for specification purposes. Product data is periodically updated to reflect product, raw material, process and/or testing changes. Please consult your Plibrico representative to make sure you have the most current data.
