### SECTION 1 - MATERIAL IDENTIFICATION

**Trade Name and Synonyms:** Exo-set Uno M G  
**Product Number:** 17437  
**Chemical Name and Synonyms:** High Temperature Cements  
**Manufacturers Code I.D.:** L - 2965  
**Chemical/Mineral Family:** Alumino Silicate  
**Recommended Use:** Refractory/Construction/maintainence/repair material  
**Contact Person:** Tom Ervin, tervin@plibrico.com  
**EMERGENCY PHONE:** 312-337-9000, 740-820-8746, 740-604-1033

#### Manufacturer: Plibrico Company LLC  
1010 N. Hooker Street, Chicago, Illinois 60642  
Phone 312-337-9000; Fax 312-337-9003  
www.plibrico.com

#### Supplier: Plibrico Company LLC  
1010 N. Hooker Street, Chicago, Illinois 60642  
Phone 312-337-9000; Fax 312-337-9003  
www.plibrico.com

**Al₂O₃** 58.5%  
**SiO₂** 26.4%

---

### SECTION 2 - HAZARDOUS IDENTIFICATION

**Signal Word:** Danger  
**Hazard statement:**  
- H315: Causes skin irritation,  
- H320: Causes eye irritation  
- H335: May cause respiratory irritation  
- H351: Suspected of causing cancer  
- H373: May cause damage to lung through prolonged or repeated inhalation.

**Precautionary Statements:**  
P260+P261 - Avoid breathing dust/fume/gas/mist/vapors/spray  
P280 - Wear eye protection/face protection  
P285 - Wear respiratory protection  
P305+P351+P338 - If in eyes: Rinse cautiously with water.  
P302+P352 - If on skin: Wash with plenty of soap and water.  
P501- Dispose of material in accordance with local regulation.

**Primary Route of Entry:** Inhalation, Ingestion, Skin Contact

**Target Organs:** respiratory tract (nose & throat), eyes, skin

**Potential Health Effects:**  
**Eyes:** May cause irritation. Abrasive action of dust can damage eye.  
**Skin:** May cause irritation  
**Ingestion:** May cause gastrointestinal disturbances. Symptoms may include irritation, nausea, vomiting, abdominal pain and diarrhea.  
**Inhalation:** Effects of overexposure:  
1. Acute: Exposure to nuisance dust may cause temporary irritation or discomfort to skin, eyes, nose, throat or lungs and may aggravate bronchial disorders.  
2. Chronic: Long term inhalation of respirable quartz, cristobalite, fused silica and/or amorphous silica may cause silicosis (delayed lung injury) and other respiratory disorders. In addition there is sufficient evidence for the carcinogenicity of crystalline silica to humans.

---

**NFPA Rating** scale 0-4  
- Health: 0  
- Flammability: 0  
- Physical Hazard: 0  
- Instability: 0  
- Special: *** Greater amounts of Quartz and Cristobalite may be formed after firing. Major portion of the crystalline silica present in the product as manufactured is not fine enough to normally be considered respirable.**

**IARC:** sufficient evidence for the carcinogenicity of crystalline silica to humans. (Group 1)  
**ACGIH:** A2-Suspected Human Carcinogen.  
**NTP:** a substance known to be a human carcinogen.

---

**Special Notes:***

- Major portion of the crystalline silica present in the product as manufactured is not fine enough to normally be considered respirable.

SECTION 4- FIRST AID MEASURES

Eyes: Immediately flush eyes with plenty of water and get medical attention.

Skin: Wash with soap and water. Get medical attention if irritation develops or persists.

Ingestion: If swallowed, seek medical attention.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. Get immediate attention.

If symptoms persist, seek medical attention.

SECTION 5- FIRE FIGHTING MEASURES

Unusual Fire and Explosive Hazards: The product will not burn. Improper mixing and bake-out of materials may result in steam spalling during initial heating. Refer to mixing instructions and bake-out schedules for proper procedures.

Fire Fighting Equipment: Fire fighters should wear full protective gear and self-contained breathing apparatus-SCBA.

SECTION 6- ACCIDENTAL RELEASE MEASURES

Steps to be taken in case material is released or spilled: Wear protective clothing as described in Section 8 of this sheet. Use routine housekeeping procedures, avoid dusting, collect material in closed containers or bags.

Waste Disposal Method: According to the EPA (40CFR 261.3) wastes are not hazardous wastes. Wastes may be disposed of in a landfill, however, in accordance with federal, state, and local regulations.

SECTION 7 - HANDLING AND STORAGE

To ensure product quality, store material in a dry place. Minimize dust generation and avoid inhalation and contact with refractory dusts during processing, installation, maintenance and tear-out. After handling of refractory dusts from processing, installation, maintenance or tear-out, wash exposed skin areas thoroughly. Wash clothing contaminated with dusts.
Waste Disposal Method: According to the EPA (40CFR261.3) wastes are not hazardous wastes. Wastes may be disposed of in a landfill, however, in accordance with federal, state, and local regulations. However, dusts generated during maintenance and tear-out operations may be contaminated with other hazardous substances (e.g. metals). Therefore, appropriate waste analysis may be necessary to determine proper disposal. Waste characterization and disposal/treatment methods should be determined by a qualified environmental professional in accordance with applicable federal, state and local regulations.
SECTION 15 - REGULATORY INFORMATION

CANADIAN WHMIS: D2A
CANADIAN EPA: Components of this product are listed on the Domestic Substance List (DSL).
U.S. FEDERAL REGULATIONS:
SARA TITLE III: EPCRA Section 302 (EHSs):
This product does not contain ingredients subject to reporting requirements of 40 CFR Part 355, Appendices A and B (Extremely Hazardous Substances).
CERCLA Section 304:
This product does not contain ingredients subject to state and local reporting under Section 304 of SARA Title III as listed in 40 CFR Part 302, Table 302.4
SECTION 311/312 HAZARD CATEGORIES:
Product (airborne particulates) is categorized as an immediate (acute) health hazard and a delayed (chronic) health hazard as defined by SARA Title III Section 311/312 (40 CFR 370).
SECTION 313 TOXIC CHEMICALS: None
TSCA: Components of this product are listed on the TSCA Inventory.

SECTION 16 - OTHER INFORMATION

Only Trained personel should use this material.

Abbreviations:
ACGIH: American Conference of Governmental Industrial Hygienists
CAS: Chemical Abstracts Service
CERCLA: Comprehensive Environmental Response, Compensation and Liability Act
DOT: Department of Transportation
EPA: Environmental Protection Agency
IARC: International Agency for Research on Cancer
NFPA: National Fire Protection Association
NIOSH: National Institute for Occupational Safety and Health
NTP: National Toxicology Program
OSHA: Occupational Safety and Health Administration
SARA: Superfund Amendment and Reauthorization Act
WHMIS: Workplace Hazardous Materials Information System (Canada)

DISCLAIMER
The information presented herein is presented in good faith and believed to be accurate as of the effective date of this Safety Data Sheet. Occupational exposure limits are under constant review and may be changed at any time. Employers may use this SDS to supplement other information gathered by them in their efforts to assure the health and safety of their employees and the proper use of this product. This summary of the relevant data reflects professional judgment. Employers should note that information perceived to be less relevant has not been included in this SDS. Therefore, given the summary nature of this document, Plibrico Company LLC does not extend any warranty (expressed or implied), assume any responsibility or make any representation regarding the completeness of this information or its suitability for the purposes envisioned by the user. No warranty guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use. In addition, Plibrico Company LLC shall not be liable for injury arising by either misuse of materials, or failure to follow safety procedures as outlined in the safety data sheet.
