Plibrico Refractory Service Operation

2815 North 11th Street, Omaha NE 68110

We house problem solvers, go-to managers, superintendents, supervisors, field crews, lab technicians and developers, and everyone in between. Our customer-focused team has in-depth knowledge of, and field experience in, both refractory services and materials.

We use that knowledge to ensure your solution matches your specific need and is properly managed from conception through completion.

Discover Plibrico – We have built a business over more than a century based on trust, knowledge, and experience, qualities that create close lasting relationships with our customers and allow us to deliver superior refractory heat control solutions to you.
